William **FLORENTIN**

ESGI Student

ABOUT ME

ESGI student in the 75. I am looking for an internship in an IT company specializing in the Web or a company with a large IT department. Appreciating the universe of technical and IT professions, I hope to find an alternation as soon as possible for the next few years.

EDUCATION

Engineering School (2020 - 2025)
ESGI – Paris 75 (12th dist)
1st and 2nd year successfully completed. I am currently in 3rd year at ESGI.
My end-of-year project was to create a site for the sale of services between individuals (code available on my Github).

Technical High School (2016 - 2020)
Lycée Jean Moulin – Les Andelys 27
2nd General.
1st and Terminale STI2D - Class delegate.
My EE project consists of making an autumn directional sign, also called **E-Sign**. The purpose of this project was to facilitate access to visitors to our establishment. I chose the solar panels to use in line with the specifications validated by the group. I created a code on **ARDUINO** to control the orientation of the arrow and to follow the panel's consumption balance.
